

PAPA JOHNS IS BUILT ON A COMMITMENT TO BETTER INGREDIENTS. BETTER PIZZA.®

This commitment extends throughout our operations, from providing a superior, high-quality pizza, to innovating new menu options and improving animal welfare throughout our supply chain.

[LEARN MORE](#)

SERVING UP AUTHENTIC INGREDIENTS

- Our fresh, never-frozen original dough is made with six simple ingredients: flour, water, yeast, sugar, oil and salt
- Tomatoes for our unique sauce go from vine to can in the same day
- Ingredients are delivered to our stores twice a week

INNOVATING TO MEET CUSTOMER PREFERENCES

- One of the first pizza chains to offer a vegan pizza with our original dough, tomato sauce, vegetable toppings and, in some markets, dairy-free cheese
- Continuously innovating to add balanced menu items and adapt to evolving customer preferences

ENGAGING WITH SUPPLIERS

- We engage and collaborate with suppliers on various topics and expect suppliers to have the highest standards commercially available for ingredient quality, safety and animal welfare
- We lead and conduct quality audits on our North American food suppliers

WORKING TOWARD COMMITMENTS

- Aiming to transition 100% of eggs and egg ingredients for our proprietary menu items to come exclusively from cage-free suppliers by 2030
- We are proud of our progress. In 2016, we began using cage-free eggs across our menu in North America – currently 90%+ of stores are using cage-free eggs. Our UK market has used only cage-free eggs since 2018
